OBJECTIVE

A Software development position utilizing my attention to detail, strong problem solving, and communication skills.

EDUCATION

Bachelor of Science in Computer Science, Dec 2022

Emphasis: Software Development

Northern Illinois University, DeKalb, IL

Associate of Applied Science in Computer Science, Dec 2020

Emphasis: Software Development

Joliet Junior College, Joliet, IL

TECHNICAL SUMMARY

Programming languages: C, C++, Bash, HTML, PHP, SQL, JavaScript, Assembler, RISC-V, Python, Java, and Swift.

Operating Systems: Windows, Linux

EXPERIENCE

Cashier, Jewel-Osco, Lockport, IL, January 2019 – Present

- I ring up groceries and provide customer service.
- I use my communication skills to make purchases as time efficient as possible.

Tech Assistant/Custodian, Lockport Township High school, IL, June 2016 – Aug 2018

- I set up Chromebooks for the incoming freshman.
- I installed new hardware in the classrooms.

PROJECTS

Sudoku Solver

<https://github.com/Blue1818/Sudoku-Solver>

Takes an unsolved Sudoku puzzle as input and uses a recursive algorithm to solve it.

D&D Combat Manager Discord Dot

<https://github.com/Blue1818/initTrackerWebApp>

Work in progress project. This program helps a person run Dungeons and Dragons combat. This program runs all rules automatically and keeps track of all values the Game Master would need.
